

Right Angle HDMI Cables

270° Right Angle, High Speed HDMI Cable with Ethernet, 30 AWG Construction

Why Use This Covid Cable?

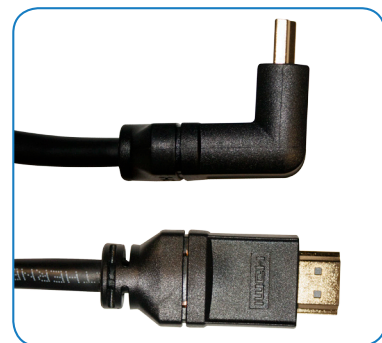

Right Angle Connector: These HDMI cables come with a right angle HDMI connector on one side. This helps fit the connector in tight spaces.

Construction: This Covid cable is a 30 AWG HDMI cable, helping with flexibility while still providing high resolution quality.

Cost: These cables offer a cost effective option for right angle HDMI, compared to purchasing both an HDMI cable and separate adapter.
