

Experience The Most Secure System With Covid's DB™ Starter Kit

DBSTARTERKIT

Experience the superior connection of Covid's Double Bubble™ compression tool and connector system with one convenient kit.

In order to continue offering the best products and systems, Covid provides an affordable and convenient way for professional installers to experience the remarkable connection that our Cable Pro compression tools and F-Conn compression connectors provide in one easy to use kit.

Covid's DB Starter Kit contains a Double Bubble™ Radial Bubble Compression Tool and a variety of DB™ compression connectors to create a secure connection for structured wiring, security and satellite installations.

Covid designs and manufactures these great products to guarantee our customers are receiving high-quality, superior performance products. Covid's F-Conn compression connectors and Cable Pro compression tools work together as a fully integrated system to create reliable, rock-solid connections.
