FIELD TERMINATED HD

Contact Your Covid Representative For More Information!

Covid's New Field Terminated HD Connector allows you to easily terminate your own HDMI connections in minutes. Run your bulk cable to desired length, pull it easily through conduit, then terminate the connection right in the field.

- Run HDMI cable through conduit then terminate your connection
- No more excess cable to try to hide
- Repair your existing HDMI connections without replacing the entire cable
- Optimal signal strength up to 50' at 1080p
- No stripping wires, no solder
