

Distances Up To 1000 Feet!

Works With Any HDMI Device

RAINBOW FISH

FIBER OPTIC HDMI

The new Rainbow Fish Fiber Optic HDMI Cables offer a long distance solution with no signal degradation up to an amazing 1000ft.

The fiber optic HDMI connectors are precision-joined with the fiber assembly in full compliance with HDMI standards. The housing is constructed of high durability composite material for necessary protection of the internal HDMI to fiber transfer. The cables are Riser Rated and can be used for any HDMI component such as HDTV, 3D Video, DVR, Blu-ray, projector and computers.
