

USB-C to HDMI Female Pigtail

Convert USB-C video to HDMI with the added ability to switch on and off with a button press

4K UHD

Why Use This HDMI Cable?

Resolution: This pigtail can easily convert a high resolution USB-C 4K60Hz video signal to HDMI for screen mirroring, and extension.

Security: On/off switch allows for temporary end to video transmission which can allow for scenarios such as entering a password during a presentation.

Simplicity: Easy to use, this pigtail is plug and play. No drivers are needed. Toggle the signal on/off with the button, no need to unplug the pigtail.

Compact: Small form factor, this pigtail can easily fit in any bag, pocket, or case for storage.
