25ft. - CVD0315-25
33ft. - CVD0315-33
50ft. - CVD0315-50
75ft. - CVD0315-75
100ft. - CVD0315-100

Plenum

3ft. - CVD3315-03
6ft. - CVD3315-06
12ft. - CVD3315-12
25ft. - CVD3315-25
33ft. - CVD3315-33
50ft. - CVD3315-50
75ft. - CVD3315-75
100ft. - CVD3315-100

Why Use This Covid Cable?

Quality: These VGA to component video cables are built using Covid's 26 AWG shielded stranded coax cables and feature durable nickel connectors.

Variety: These cables are offered in both plenum and non-plenum versions and come in a variety of standard lengths. Custom lengths are also available.

Construction: These cables are double shielded and are built using superior materials opposed to other video cables.

Specifications

- Plenum & Non-Plenum Options
- VGA to Component Video (3 RCA)
- 26 AWG Stranded Coax
- Double Shielded
- Male to Male Configuration
- Strong & Durable Connectors
- Custom Lengths Available
