

HDMI 2.0 Cable 4K 18G

Supports 4K60Hz up to 50 Feet

Why Use This HDMI Cable?

Resolution: This HDMI cable supports high resolutions up to 4K60Hz, and it also supports features like 3D and HDR.

Durability: Multi-layer high density shielding combined with twisted pair construction and a CL3 rated jacket all come together to form a highly durable and lasting cable.

Versatility: This cable is the perfect choice for combining video, audio, and networking all into one cable.

Covid Part Number

EC-HD21-XX

Specifications

- High speed ethernet 100 Mb/sec
