HDMI 4k Audio Extractor/Communicator[™]

Extracts audio;
Fixes EDID and HDCP

Why you need it:

- Most power amplifiers do not have HDMI inputs
- More and more devices especially the source devices are HDMI based
- The Luxi Audio Extractor can be easily inserted to an HDMI system and extracts analog and SPDIF audio out to feed the none-HDMI power amps

Features and benefits:

- World's smallest 4k 18 Gbps HDMI audio extractor with full HDMI 2.0 compliance
- It's also a full 4k 18 Gbps Communicator that fixes most EDID and HDCP problems
- No mounting needed; just plug it in-line between the source device's output and the cable to the sink device
- Industry's leading performance with super low noise and distortion
- Two channel analog output on 3.5 mm mini stereo jack and SPDIF output on female RCA connector
- Luxi patented T-grip[™] locking HDMI connector design on both male input and female output ensuring secure connector mating
- Luxi SuperSlim[™] HDMI connector and thin cable fit in the tightest spaces
- Flexible pigtail and compact design allowing multiple of these products to hang on the back of a matrix switcher

Products name	Model
HDMI 4k Audio Extractor	LUX-AHD-211
5 V power supply (US style)	LUX-PWA-052U
