

## **NL4MPXX-UC**

4 pole male chassis connector for 30 A rms continuous. Black D-size flange, countersunk thru holes, 1/4" flat tabs (termination e.g. with Faston tab Tyco part # 41829)

This connector is fully compliant to the device standard IEC 62368-1, due to its component certification according to IEC 61984.

The speakON panel mount connectors are the standard chassis connectors for loudspeaker / amplifier interconnections. They feature a unique metal locking system, making contact only once fully locked. The speakON receptacles are robust, versatile and easy to terminate.

## **Features & Benefits**

- IEC 61984 certified, IEC 6236/-1 compliant
- Precise keyway for secure mating with metal insert in locking area
- Glass reinforced V-0 materials extremely robust and durable
- Airtight design optimized for speaker applications

## **Technical Information**

| Product |            |
|---------|------------|
| Title   | NL4MPXX-UC |
| Gender  | male       |

| Electrical                |   |
|---------------------------|---|
| Contact resistance        | ≤ 2 mΩ  |
| Dielectric strength       | 2.8 kVac  |
| Insulation resistance     | >0.1 G $\Omega$ (after dampheat)                                    |
| Rated current per contact | 30 A rms continuous   |
| Rated voltage             | 250 V ac  |
| Attention                 | speakON is NOT to be used as an AC mains or power supply connector! |

| Mechanical         |                                    |
|--------------------|------------------------------------|
| Lifetime           | > 5000 mating cycles               |
| Termination        | ¼" flat tabs                       |
| Locking device     | Quick Lock                         |
| Mounting direction | Rear (e.g. MFD) / front mounting   |
| Chassis shape      | D                                  |
| Layout             | standard hole position, thru holes |

| Material        |                   |
|-----------------|-------------------|
| Contact plating | Ag                |
| Contacts        | Copper Alloy      |
| Shell           | Polyamide (PA 66) |

| Environmental     |                  |
|-------------------|------------------|
| Temperature range | -30 °C to +80 °C |
| Flammability      | UL 94 V-0        |
