33ft. - VP-CSW1988-33
50ft. - VP-CSW1988-50

Why Use These Covid Cables?

Construction: These serial cables are pinned straight through making them ideal for connecting a DTE device (PC) to a DCE device (modem/communications device).

Variety: These cables are offered in a variety of standard lengths and conveniently come male to male, male to female or female to female.

Quality: These cables are built using superior materials opposed to other video cables and offer strong durable molded connectors.

(Female to Female)
