

24AWG Active HDMI Cables

Plenum ACTIVE HDMI Cable with Ethernet, Built-in Repeater, 24 AWG Construction

Why Use This Covid Cable?

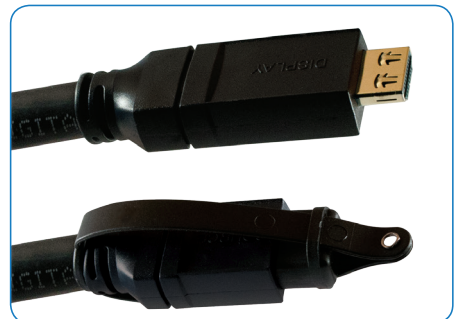

Distance: Covid's 24 AWG Active HDMI Cables have built in circuitry allowing for much longer cable runs. These cables are available up to 100ft.

Easy Installation: These HDMI cables are shipped complete with Covid's Spear-Head Pull System, placing pull stress on the cable strain relief instead of the connector.

Secure Connection: The Covid T-Grip connectors offer a more secure connection, holding the cable firmly in place.
