

Shielded Active Optical HDMI Cable

Fiber-Hybrid/Copper HDMI 2.0 Cable

Why Use This Covid Cable?

Versatility: This cable is not limited by point-to-point restrictions unless in HDMI 2.0 applications. Covid sells an active pigtail if multi-point applications are needed with 4K60Hz.

Flexibility: The Covid AOC HDMI cable offers an extremely tight bend radius. In addition this cable is thin, light weight and much more flexible than traditional copper cables.

Resolution: The AOC HDMI cable is the perfect choice for high resolution digital video applications. The cable supports resolutions up to 4K@60Hz at 150ft.

Specifications

- High speed HDMI active optical cable
- Supports up to 4K@60Hz, 3D, Deep Color
- EDID, CEC, HDCP compliant
- No external power required
- Overall shielding with metal connector shell
