

Active HDMI Pigtail

Extend HDMI Signals with Injectable Power Option

PMC-HDF-A

Why Use This HDMI Pigtail?

Active: The PMC-HDF-A pigtail has built-in electronics that extend HDMI signals and resolve AOC related issues in multi-point applications.

Power: The 5v remote input supplies power from the display end, eliminating the need for supplemental power at the source.

Construction: These HDMI cables are built using premium materials and come complete with durable molded connectors.

Panel Mount: These Covid panel mount pigtail connectors can be mounted to Covid panels or wall plate products with ease.
