

Cat 6a Cables

Stranded UTP Category Cables - Cat 6a (Unshielded)

V-C6A-RJ-XX-XX

First XX= Color | Second XX= Length

Why Use These Covid Cables?

Multiple Colors: These Covid category cables are available in a variety of color choices.

Unshielded: The unshielded category cables are best suited for environments with low electromagnetic and radio frequency interference.

Speed: Category 6a cables support faster speeds. These cables are best suited for high speed (10Gbps) network applications

Available Colors: Black, Red, White, Gray, Blue, Orange, Purple, Yellow, Green

Available Lengths: 1', 2', 3', 5', 7', 10', 14', 20', 25', 35', 50', 100'

Some colors may not be available in all lengths.
See the Covid website for a list of lengths for each color.
