

# USB 2.0 Active Extender Cable

Enhanced signal quality up to lengths of 75ft, with speeds up to 480Mbps

## Description

Active USB 2.0 cable, 480Mbps, built-in repeater, A-male to A-female, distances up to 75ft, non-plenum.

## Why Use This Product

**Active Cable:** These USB cables have built-in active signal boosting circuitry that extends high speed data transfer over much further distances than standard USB cables.

**Hi Speed:** Covid USB 2.0 cables can support up to 480Mbps transfer speeds.

**Quality:** These Covid USB cables are made with premium materials making them durable and reliable for use with any USB capable device.
