DIRECT GRAPHIC PRINTING

Your Logo, Graphics & Text Printed Directly on Plates/Panels

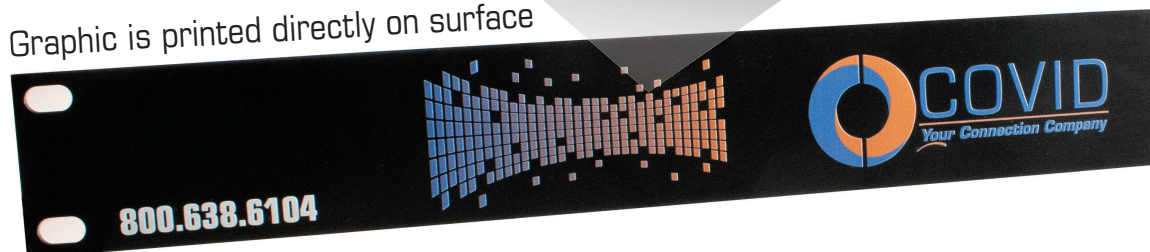

With our ongoing effort to produce superior wall plates and panel products, Covid recently invested in a technology that offers big benefits for our customers. With this new way of applying graphics we can now include text, logos and other artwork directly on wall plates and panels much faster than other techniques. The finished product is cleaner, sharper and offers amazingly vibrant colors in comparison.

- High quality graphics, logos and artwork printed directly on wall plates
- Produces amazingly vibrant colors and textures
- Much more detail and sharper graphics than silkscreen techniques
- Company logos and plate artwork saved for easy and quick re-orders

**Amazingly
Vibrant Colors
& Unmatched
Quality!**

Graphic is printed directly on surface

FEATURED PRODUCTS

SHIELDED AOC HDMI CABLES

Fiber-Hybrid/Copper HDMI 2.0 Cable

Active Optical Cables offer many benefits over traditional copper HDMI cables. Aside from being able to go further distance and handle higher resolutions, these cables have a tight bend radius and color coded ends for easy source and display identification. In addition, they are thin, light weight and flexible.

- High speed HDMI active optical cable
- Supports up to 4K@60Hz, Deep Color
- EDID, CEC, HDCP compliant
- Low power consumption
- Overall shielding with metal connector shell
- Plenum rated
- Small, light-weight, flexible and easy to use
- TAA compliant product

Covid sells an active pigtail (CWP0005-HDF-ACT) if multi-point applications are needed with 4K60Hz.

Who is Covid?

Covid has been manufacturing innovative audio visual connectivity solutions for more than 37 years. Products span the categories of custom wall plates & panels, cable products, connectors, signal management solutions and many other A/V accessories.

Superior product lines and outstanding customer service have made Covid a leader in the A/V industry. Since 1982 Covid's priority has been to supply industry-leading products at competitive prices. Moving forward, the priority remains the same.

Over the past thirty-seven years, experience has taught us to put the customer first. When a customer orders from Covid they know they will get the quality products they need, delivered on time and at a fair price.

Covid's main headquarters is located in Tempe, Arizona and works with many well-known A/V dealers, distributors and representative firms throughout the U.S. In addition to serving the U.S. market, Covid products are sold in over 15 different foreign countries and carried by distributors in Canada, the Middle East and throughout Europe.

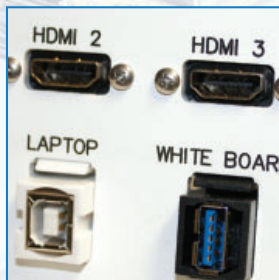

Top 10 Reasons Customers Choose Covid

- Covid takes pride in offering fast turn-around times on wall plates and custom cable assemblies.
- Well educated sales staff that is here to help with customer questions, orders and concerns.
- A strong engineering department works closely with sales and customers alike.
- An outstanding on-time delivery record.
- Always offering competitive pricing.
- Access to the latest technology in metal cutting, UV printing/engraving and plate/panel production equipment.
- Access to the latest technology in design and ordering process software.
- Always responding to customer needs and industry changes.
- OEM capabilities and custom engineering allowing us to design products to individual customer specifications.
- In-house wall plate production facility and full-scale cable production capabilities allowing us to handle orders of any size.
